1 min ago. Free Monopoly Dice typically refers to in-game rewards or bonuses offered in various digital versions of Monopoly, especially in mobile games like "Monopoly Go!" or "Monopoly Slots." In these games, dice rolls are the primary resource players use to move around the board, unlock properties, earn rewards, and progress through the game.

Free dice are often given out as daily rewards, for completing specific tasks or events, or during promotional periods. Players can sometimes receive them by watching ads, participating in special challenges, or via time-based rewards that replenish after a certain period.

It's important to note that while free dice are a common feature in digital versions of Monopoly, offers for "free Monopoly dice" outside the official game ecosystem could be scams or deceptive. Always access such rewards through legitimate in-game methods or official game events to avoid security risks or fraudulent offers.

The free-to-play app for Android and iOS mixes traditional elements of the almost 100 year-old game, like collecting property, and building houses.

Recent Update 10th October 2024 (few mins earlier)

I hit 19,999 Monopoly Go Dice Link today. Normally, I don't make a big deal out of this stuff. But, this feels like quite an accomplishment given the dramatic shift I've made.

It would be safe to say that six months ago, this would have been laughable. I wasn't active on Monopoly, and I detested everything about it (and short-form video generally). But, by the end of September, I put my old man shoes away and realized that this was something I needed to do.

When I committed to it, I made a conscious decision to become the most followed account related to the topic of Facebook ads on Monopoly. I'm obviously not there yet, but this is a nice milestone.

What I did was simple and complicated at the same time. It really comes down to two things

The toughest part of getting started is publishing videos into the void. Maybe it was to give me a psychological boost or to make my profile look a bit more desirable in the early going, but I ran a low level of Monopoly ads during the first couple of months.

From the time I committed to creating videos on Monopoly in October through the middle of December, I collected 3,200 followers via ads. It was a nice foundation.

This was good and bad.

The bad: I tried really hard to target precisely to build my audience with relevant people. All indications are that this wasn't successful. It was mostly numbers padding (the relevant followers would come organically).

The good: We can knock vanity metrics all we want, but it does mean something on Monopoly if someone has a following. It surely helped convince some relevant people that I was worth following.

Did this lead to a significant spike in engagement during those first few months? Not really. But I do think that it helped me reach the next step

### A Dedicated Commitment to Create

Look, I could run ads forever on Monopoly, but unless I was actually creating good content, it would not matter. I dedicated myself early.

I would create bad videos in the beginning, there was no avoiding that. But the goal was to get myself out of that phase as quickly as possible. I created 70 videos in October. It was a difficult, challenging, and inefficient month of video creation.

But it was worth it. I started to figure out my process. I found a workflow. Needs like software and lighting became clearer to me.
